

An Exact and Plain Threefold T A B L E,

Very useful for all Persons who have occasion to Receive or Dispose of Money, or other Silver, by Weight. For;

By the first may be seen to the hundredth part of a Farthing, what Sum of Money any quantity of Ounces, Penny weights or Grains of Silver amounts to at the Several Rates of 5 s. 2 d. 5 s. 4 d. 5 s. 6 d. or 5 s. 8 d. per Ounce.

By the Second may be seen to the hundredth part of a Grain, how many Ounces, Penny weights and Grains of Silver must be had for any Sum of Money from a Farthing to a Thousand Pounds, at the said Rates of 5 s. 2 d. 5 s. 4 d. 5 s. 6 d. or 5 s. 8 d. per Ounce.

And for the Convenience of such who have only *Avoirdupois* and no *Troy* weights, The third shews how many *Troy* Ounces, Penny weights and Grains, any quantity of *Avoirdupois* Ounces or Drams amount to, and this also to the hundredth part of a Grain.

Note That Silver (as also Gold) are weighed by *Troy* Weight, whercof

24 Grains are 1 Penny weight. 20 Penny weight 1 Ounce. 12 Ounces are 1 Pound *Troy*.

Whereas of the Common Weight which is called *Avoirdupois*, 16 Drams make 1 Ounce. 16 Ounces 1 Pound.

And in Apothecaries Weights, the Ounce *Avoirdupois* is divided but into 8 Drams; so that each of the said Drams is 2 Common Drams.

Note also, That

5 s. 2 d.	for one Ounce <i>Troy</i> , is	4	8	2	30	}	for one <i>Avoirdupois</i> Ounce.
5 s. 4 d.		4	10	1	60		
5 s. 6 d.		5	0	0	90		
5 s. 8 d.		5	2	0	20		

Grains.	At 5 s. 2 d. per Oun.				At 5 s. 4 d. per Oun.				At 5 s. 6 d. per Oun.				At 5 s. 8 d. per Oun.
